

Patriot Welcomes New Senior Project Geologist

Patriot Engineering and Environmental, Inc. is pleased to welcome **Mr. Steven P. Sittler, P.G.** to its highly trained and efficient technical staff as a Senior Project Geologist.

Mr. Sittler brings over 31 years of diverse technical experience in applied hydrogeology, with specialized experience in remedial strategy development and implementation. He has managed and performed numerous site investigations, audits and assessments in more than 20 states and is familiar with all aspects of remedial strategy development and remedial system/injection design, installation and operation. Mr. Sittler has coordinated, designed and managed more than 1,000 hydrogeologic assessment/remediation programs involving both implementation of innovative closure strategies and unique applications of conventional technologies.

Mr. Sittler is a Registered Professional Geologist in Indiana, Tennessee, Kentucky, Georgia, and Missouri.

Please feel free to contact Mr. Sittler regarding any of your Environmental needs at (c) **574-876-9835**.
